

## HGX-RMT01 Mounting Instructions for HperLink Dual Polarized 2.4 & 5 GHz Omni Antennas

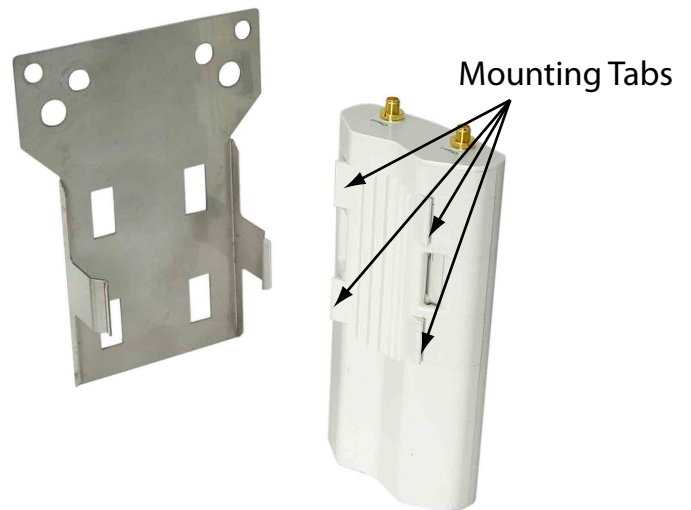

This procedure is for mounting the Ubiquiti Rocket M2 or M5 radio using the HGX-RMT01 bracket included in the following kits:

ARK5158DP-10U-0    ARK5158DP-13U-0  
ARK2406DPU-0      ARK2410DPU-0  
ARK2413DPU-0

1) Attached the HGX-RMT01 bracket as shown using the existing hardware included with antenna's mast mounting kit.

2) Snap the Ubiquiti Rocket M2/M5 into the mounting bracket as shown aligning the four mounting tabs on the rear of the radio with the slots in the bracket.

3) Connect the Rocket M2/M5 to the antenna using the included cable assemblies.
