CS2N AND CS2H SERIES D-SUB CABLE ASSEMBLIES

Easy Instructions

L-com has added two longer screws to accommodate users that are removing the hex stand offs from the female connector. Follow these simple instructions to change the hardware to satisfy your connecting needs.

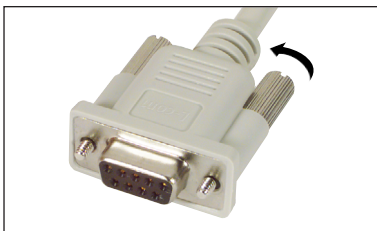

STEP 1

Remove hex stand offs.

STEP 2

Remove the existing thumbscrews by unthreading them (turn counterclockwise).

STEP 3

Thread longer thumbscrews into place (turn clockwise).
